OBJECTIVE

Enthusiastic and results-driven Computer Science undergraduate with hands-on experience in **Flutter** and **MERN Stack** development. Eager to apply skills in full-stack engineering, automation, and AI-assisted workflows to contribute to innovative projects. Proven track record in hackathons and real-world client solutions.

WORK EXPERIENCE

Automation & IT Intern

Essentialsfix.co.uk

August 2025 – September 2025

Remote (United Kingdom)

- Streamlined business operations by designing and implementing automation workflows using **n8n**, reducing manual data entry tasks.
- Managed IT support tasks and optimized internal processes for a UK-based e-commerce platform.
- Collaborated with the technical team to integrate third-party APIs and improve system efficiency.

Customer Sales Representative

ARC Designer

July 2023 – September 2023

Karachi

- Developed keen insight into customer requirements and market trends, translating user needs into creative solutions.
- Honed interpersonal and problem-solving skills through direct customer interaction.

SELECTED PROJECTS

Talha Musharraf & Dabgroup.ae (Real Estate Portfolios)

[\[Live Link\]](#)

- **Client Project:** Developed high-performance portfolio websites for Dubai-based real estate agents. Features include dynamic property listings, galleries, and lead generation forms.
- **Tech:** React.js, Next.js, Tailwind CSS, EmailJS.

Bluetooth Attendance System (Awarded Project)

Ongoing

- **Achievement:** Officially recognized and awarded by the Director IT and HOD at DHA Suffa University.
- **Description:** An offline-first mobile app using Bluetooth Low Energy (BLE) to automate student attendance.
- **Tech:** Flutter, Dart, Bluetooth API, Firebase.

Offline-First Maps Application (UAE Client)

Ongoing

- Developed a specialized mapping app for private clients with robust offline navigation and caching.
- **Tech:** Flutter, Mapbox, Hive (Local DB).

Drinking Water Delivery App & Portal (UAE Client)

Ongoing

- Full-stack delivery management system with a customer app and admin dashboard.
- **Tech:** Flutter, MongoDB, Express, React, Node.js.

JP_mern Stack Projects

[\[GitHub Repo\]](#)

- Collection of full-stack apps (Weather, News, Auth Systems) demonstrating REST API and DB proficiency.

HONORS & ACHIEVEMENTS

- **1st Place – React Native Hackathon (12 Hours) — Jawan Pakistan:** Built a fully functional mobile application within a tight deadline, securing the top position.
- **1st Place – React Web Dev Hackathon (6 Hours) — Jawan Pakistan:** Developed a winning responsive web solution; selected for official showcase.

EDUCATION

Undergrad in Computer Science DHA SUFFA UNIVERSITY - Karachi	August 2023 – Present
DAE (eve) in CIT GMI FB AREA - Karachi	October 2021 – July 2024
Intermediate in Pre-Engineering PECHS Govt Degree College - Karachi	September 2021 – July 2023

TECHNICAL SKILLS

Languages:	Dart, JavaScript (ES6+), Python, C#, HTML, CSS, SQL
Frameworks:	Flutter, React.js, Next.js, React Native, Node.js, Express.js, .NET
